WORK EXPERIENCE

United States Coast Guard   **Jan. 2016 – Aug. 2019**
Environmental Analyst   *Washington, DC*

- Analyst for the U.S. Coast Guard Office of Environmental Standards tracking international shipping vessels worldwide to provide evaluations and recommendations for compliance and regulation.
- Experience operating on Federal and international levels, to correspond, coordinate, and enforce regulations with maritime shipping companies and the International Maritime Organization.
- Consultative and technical advisor to program line managers on a broad range of transportation matters that involve new, highly controversial, and precedent-setting issues.
- Database analyst, translating organizational guidance into compliance requirements for international maritime shipping. Access developer for departmental needs and services.

United States Coast Guard   **Nov. 2010 – Aug. 2015**
Deepwater Horizon Planning Section Chief   *New Orleans, LA*

- Became the youngest department head in charge of all operations and planning of personnel across the entire Gulf Coast for the largest oil spill in U.S. history.
- Directed up to 8 teams across 4 states along the Gulf Coast, supervising and delegating USCG personnel, BP representatives, and numerous contract workers to respond to what would amount to thousands of cases for BP oil across 9,000 of miles of shoreline.
- Drafted and consulted legal and environmental documents necessary for the progression of cleanup response.
- Dictated and spoke for numerous briefings about ongoing response efforts to numerous stakeholders including: Federal, State, and Local governments, environmental organizations, universities, and media interests.
